EXPERIENCE

JANUARY 2016 TO PRESENT

UX/UI Designer at *Upperquad* — San Francisco, United States

Working with a wide range of clients including Google, Niantic, Pinterest and Facebook, on various projects from Product design to desktop and mobile landing pages. Handling different projects simultaneously and delivering high quality projects on tight deadlines. Achieving meaningful, intuitive and easy-to-use interfaces by paying close attention to the users' needs, by involving the clients in the design process and by working in collaboration with the developers, designers and managers in my team. Prototyping multiple iterations until reaching satisfaction for every stakeholder on the projects.
